REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The arguments filed on 6/3/04 are persuasive as that the prior art Yoko (JP-7-135140) does not teach or suggest a process of forming a pattern including the step of forming a covering layer by a coating method using an aqueous solution of a water-soluble polymer containing silicon or metal as claimed.
2. The closest prior art Yoko (JP-7-135140) disclose a process of forming pattern, wherein Yoko teaches the covering layer is formed of a polymer containing silicon such as SOG in organic solvent but fail to teach that the polymer is water soluble as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
